

Submitter: Todd Hudson

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

I am a long-time kayaker and rower on the Willamette River and have dealt with boats, and boat operators, of every kind. Wake boats and their operators are the worst. I have been swamped and nearly capsized on more than one occasion as a result of their blatant disregard for basic boating safety. They are disrespectful, unsafe and damage property. Enough!
