

Submitter: Bernie Pliska

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

I oppose this new legislation. I have been enjoying the Newberg Pool area for over 50 years and over those years have seen many changes in the shapes and sizes of boats and the added towed activities behind those boats. And, although I can understand concerns about the wakes that are produced when wake surfing, I believe the added restrictions/regulations already in place more than adequately take into consideration the impact these wakes have on the shoreline and structures along the shoreline. Don't further restrict the boating activities of those of us who thoroughly enjoy access to this beautiful stretch of the Willamette River.
