

Submitter: Trent Pynch
On Behalf Of: The pynch ranch
Committee: House Committee On Environment and Natural Resources
Measure: HB4080

I own a sheep, goats, and cattle ranch in dixonville Oregon. I have fought vigorously to minimize death lose caused by predators on my ranch. Without this program, it will be near impossible for ranches like me to grow livestock and feed the world. What people that aren't involved in the livestock industry don't understand is that this is our livelihood, and we care about our animals. Coyotes and cougars will literally eat lambs alive and and rip off the ears and utters of lambs mother leaving to them to starve. Please consider these thoughts when speaking about bill 4080.
