Committee: Senate Committee On Energy and Environment

Measure: SB1589

My children grew up learning to wakeboard/water ski on the river and upper Willamette. They are now all, honest hardworking contributing taxpaying citizens as a result of quality family time and good values being instilled in them. Please do not take this family time away by limiting boat activities, because several lawmakers live on this stretch of river. We also live on the river in Lake Oswego in the narrows on Old River Landing. We love seeing and hearing the boats and families all spring/summer and fall long.
