I bet money that the sponsors of this bill have never worked or earned a living on a farm. I bet those Legislators that have are absolutely opposed to this bill. I grew up on a hay farm in Sisters, Oregon. We had several employees, all of which we considered family. There are many benefits to working on a farm, seasonally or year-around, than the normal and required benefits. My favorite, is the farmers-tan. Leave small family farms alone! We want them to be able to compete with corporations. We support local!
