

Submitter: David Wall
On Behalf Of: Mr Oregon who is concerned with SB 1567
Committee: Joint Committee On Transportation
Measure: HB4154

Wednesday; [02.09.22]

My position on [SB 4154] is NEUTRAL.

My testimony today concerns itself with how [SB 1567] should be applied to [SB 4154].

With reference to the aforementioned 'fuel farm and expansion'; How old are the Tanks containing Aviation fuels? How old are the pipelines? How is the under-ground tested for fuel contaminants? Are funds set aside for capital improvements to remove aging fuel tanks (if any)?

I am uncertain if my concerns of seismic vulnerability as to the 'fuel farm' and proposed expansion is valid.

[SB 1567] should cause alarm to every Oregonian.

I wish continued success of the La Grande/Union County Airport.

David S. Wall
Mr. Oregon Concurs.
