Oregon City, OR 97038

Dear Chairman Golden and committee,

I am writing to express opposition to SB 1534. As an Oregon landowner of timbered property in southern Clackamas County, I believe this bill needs further study. While some elements might prove beneficial to rural Oregon, other areas are far too broad. I would urge careful consideration and more input to refine and modify the bill before proceeding.

I hope you will consider seeking more advice from small timber owners and farmers before going further.

Margaret Mills
