

Submitter: David Wall  
On Behalf Of: Mr Oregon Opposes HB 4141  
Committee: Joint Committee On Transportation  
Measure: HB4141

Wednesday; [02.09.22]

I OPPOSE [HB 4141] WITH EXTREME PREJUDICE.

Whereas I support the Biodiesel industry, establishing a, "...timeline for restrictions on sales of petroleum diesel for use in motor vehicles..." is premature, if not downright stupid at this juncture. Do the authors of [HB 4141] know how much Biodiesel is being produced; every day, every week, every month or even yearly?

[HB 4141] wastes time and resources to pursue.

True, we are in troubled times. Possible war in the Ukraine. Oil and gas production is stymied by the Brain-Dead Biden administration. Inflation, as of this writing is [7.3%]. The Federal Reserve is getting ready to shut off the free money supply. The 'open southern border' is allowing who knows how many illegal aliens into our country that will end up in Oregon when one considers [SB 1550] and [SB 1591].

If you really want a 'fuel related headache' read [SB 1567]. The Critical Energy Hub (CEI Hub) in NW Portland should occupy all of your waking and sleeping legislative moments.

How are we going to stop interstate commerce from using Federal Highways in which vehicles will be burning petroleum based diesel fuels? The authors of [HB 4141] should present an answer.

You have my condolences on having to deal with [HB 4141] in a polite, legislative manner.

David S. Wall

Mr. Oregon concurs-The farmers are going to love you. [HB 4002] and now [HB 4141].
