

Submitter: Matt Cepica

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

More Laws isn't the answer to any of the problems..

You can't and won't enforce the laws we have. (unless it creates revenue)

Stop with the law ignorance. get out in the real world and fix some of the problems that are actually hurting us. We are tired of you wasting time and money regulating were regulation isn't needed. You only support the rich, and work to fill your own dirty pockets.

The whole bunch of you, out of touch educated morons need to go to streets and see what is actually affecting us (Real people, the public. Not employed by tax dollars.= "us").

Homeless

Drug addicts

drug dealer

thieves. Work on these issue!! Stop wasting our money by making laws for you (government=you) to make more money for you to waste!!

The swap needs drained. If in any way, you could support SB1589 your part of the swamp. Get out of your bubble and take a deep breath of reality. Use common sence. Please
