

Submitter: RJ Capra

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

This is typical of what is going on with America today. There are the few home owners with lots of money that pushes the lower income from enjoying what they love to do. It is a proven fact that the home owners cut down all of the native vegetation that causes the erosion. The Newberg pool already has regulation for towed water sports. The fact that they want to band it all together is just wrong for the common folk
