Measure: SB1579

If the state cap wages for RN we will not be able to get the help need . We need out of state rns right now and we are headed for an even bigger nursing shortage. If you do this you will discourage people from entering the profession of nursing and encourage people to leave the profession. The state has no right to cap wages for rn . Stay in your lane work on safe staffing. If you cap our wages then cap the CEO's or the doctors . Isn't this a free country we're we are allowed to have capitalism!!
