

Submitter: Daron Sabri

On Behalf Of:

Committee: Senate Committee On Veterans and Emergency Preparedness

Measure: SB1517

I support this bill. It is unbelievable that the Governor has been allowed to declare and extend a state of emergency on an indefinite basis for two years without legislative oversight, providing the "justification" for the broad restrictions on our liberty that Oregonians have experienced during this time. From government by the people to government by bureaucratic edict. We cannot allow this to continue (indeed it has gone on far too long). Please support this bill and make sure this never happens again.
