

Submitter: Craig Stahl

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

Hi,

I believe that the current rules and laws on the Newberg Pool are already restrictive and at least allow me to use my boat and recreate responsibly. I used to use the lower Willamette from Oregon City to downtown Portland but that was taken away. I strongly believe that our waterway policies should favor the general public, not special interest groups and select waterfront homeowners. I know two homeowners on the river that also oppose this. I spend many hours with my family and friends and have paid lots of hard earned money to use my boat and pay the taxes and fees to use my boat responsibly.

Thank you for listening.
