

Submitter:           william Jennings

On Behalf Of:

Committee:           Senate Committee On Energy and Environment

Measure:             SB1589

I am in favor of limiting the size of boats doing towed sports. For years I skied on the Willamette until one of these big wake boats just about swamped us and sent my daughter flying. So much for our "right" as small boaters to use the river safely.
