

Submitter: Lisa Nunnellee  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure: HB4141

Please tell me how truck drivers will get food to our grocery stores? Or our farmers will run their tractors to farm food for both human and animal consumption? Or loggers can clear out the forest you in government seats have let burn? All equipment needed to do large jobs runs off diesel. I am very sure you cannot pay enough money to replace this equipment. Stop trying to change Oregon with your ridiculous and nonsensical bills.
