

Submitter: David Wall  
On Behalf Of: Mr Oregon Supports SB 1589  
Committee: Senate Committee On Energy and Environment  
Measure: SB1589

Thursday; [02.10.22]

I SUPPORT [SB 1589].

The 'Wave-boats' are nothing less than impressive but...they are too powerful for the Newberg pool area.

There is a danger of erosion of the fragile river bank, loss of fish habitat as a result of 'silt' falling into the river from 'waves' hitting the fragile river bank.

There is property damage to private docks.

There is a safety-actually a significant danger to those; in canoes, paddle-boards, small boats used for fishing, and the brave souls who want to go swimming in the river.

Don't misunderstand me, I love those 'Wave-boats' but, they are just too powerful for the Newberg Pool and surrounding area.

David S. Wall  
Mr. Oregon sadly Concurs.
