

Submitter: Toni Silbernagel
On Behalf Of: Farmers and supply chains
Committee: Joint Committee On Transportation
Measure: HB4141

Please recognize that to limit diesel at this time would create tremendous hardships on us all. Farmers already work on such slim margins and adding this burden would take many of them out of business. Also our supply chains are already suffering imagine less trucks and drivers or suppliers of our food die to leaving the industries. This economy is not the time to take such drastic measures
