

Submitter: Dave Berger

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

Diesel is a critical fuel for our economy. A diesel truck pulls about a third to half again as much as a gasoline engine. Using strictly gasoline engines will mean about 30 to 50 [per cent increase in truck traffic. It will mean hundreds of thousand dollars in equipment we can no longer use. This bill is a BAD idea for our economy.
