

Submitter: Wenona Given

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

I run a very small farm/timber operation. Both of my tractor and my farm truck are diesel. I do not make enough income to replace these pieces of equipment and without them would be unable to maintain my property or do any kind of farming. Without the farming and forest maintenance I would see an increase cost in property taxes and an increase risk of a wildfire destruction. I encourage you to look at the bigger picture and the impact that the passage of this bill would cause.
