

Submitter: Katie Ireland

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

If this bill passes, it will completely destroy agriculture in Oregon. There will be no way for a huge working population of this state, to adapt to be in compliance with the requirements. Truckers, farmers, loggers, just to name a few, will all be out of work. Farms that is original homesteaded land, will not be able to continue. I urge you to not pass this bill.
