

Submitter: Tammie Murray
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB4154

Is not House Bill 4154 the furthestmost of presumptions – Union County is only 1 of 36 counties in this state. Although the Legislature has no problem whatsoever requesting spending \$400,000 of taxpayer dollars with no explanation for one of their clearly bias wish list items. \$400,000 all because Union County wants larger fuel storage facilities, ever heard of more frequent fuel delivery schedule? Therefore, I am in opposition of House Bill 4154, because frankly 10 lines of a \$400,000 proposed Act doesn't normally answer citizens why's and what for's of the expensiveness of the supposed fuel farm. Moreover, why is the Legislature taking up this issue? La Grande/Union County Airport is owned by Union County; is not under the umbrella of Oregon Department of Aviation, so why is the state legislature coming forth with this proposed financial outlay for a project that is not overseen by a state agency. Gosh, I thought our state was beating the drum loudly all this time in support of going green, guess not in this scenario.
