

Submitter: Heather E

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

Oregon agriculture lives on diesel fuel, you are slowly destroying business after business with these bans. Our whole economy will start to crumble if Oregon keeps taking away vital tools in the farming, logging, and, heavy machinery industries. Inflation is already unbearable no matter where you are. If our local farms go down, and we have to buy products out of state, just think of much inflation will go up then.
