

Submitter: Mary Cargill

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

I oppose limiting diesel. We are farmers and would promote biodiesel, but until it is at a sufficient amount to cover the loss of revenue for truckers, transportation, and farming by banning diesel, I oppose this proposition. Oregon had a chance to sustainably burn garbage for power like Sweden, but chose not to do so. It is like our leadership is only concerned about the Portland metro and not the rest of the state that pays through taxes and revenue in agriculture.
