

Submitter: Nancy Higgins

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

Please oppose HB4141. If you were to pass this devastating house bill, it will cripple Oregon. Nearly all Fire, EMS, farming, logging, construction, road building, road maintenance, back up generators to hospitals and other business, many commercial fishing vessels, many law enforcement specialty vehicles, and many citizens that have diesel powered vehicles for work or pleasure will be unable to do their business or provide their service if this passes. This would likely drive people from Oregon, and keep folks from moving to Oregon ultimately destroying the states economy and livelihood. This house bill is a disaster and my family opposes it 100% .
