

Submitter: Sandy Chung

On Behalf Of: Portland Advocates for Lead-free Drinking Water

Committee: House Committee On Judiciary

Measure: HB4131

Portland Advocates for Lead-free Drinking Water: The City of has shown willful municipal control over favoring citizens' civil rights.

This manifests in not only police abuse of power, but also through a pervasive disregard of protecting public health. City of Portland & League of Oregon Cities' efforts to weaken HB 2928 law perpetuates Portland OR's broad pattern of civil rights violations - rooted in racist and socio-economic prejudice.
