

Submitter: Michael Hager

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

Restricting the availability of diesel fuel will severely disrupt Oregon's economy. Most of the agricultural equipment (tractors) run on diesel. A large percentage of domestic vehicles also run on diesel. This is the dumbest thing I have heard of since the last dumb thing the legislature did. Please go back to your suburban neighborhood and leave farmers, and all of rural Oregon, alone.

Sincerely,

Michael Hager
