The diesel bill I'll try to be nice you state that this new fuel can't keep up with demand. Instead of telling us that we have to use this fuel only. No thank you, my 2004 pickup doesn't run very well on the eco diesel so I have my doubts in your science of a fuel that is gonna perform the same as the fuel we use now. I AM OPPOSED TO THIS. Why don't you get together with manufacturers and see what they need in the fuel to run our rigs on.
