

Submitter: Michelle Hagle

On Behalf Of:

Committee: House Committee On Rules

Measure: HB4133

Everyone who votes should be a legal citizen of this country! It must be done in person and only with valid current state identification. No electronic very hackable and easily manipulated machines. Counted by extremely vetted persons picked by individuals who cannot and will not be influenced or bought. Those counting the votes watched at all times to detour cheating, miscounting or distruction of ballots. If found to be doing anything that could, would or did change numbers or outcomes be held criminally liable. Mail in ballots should be stopped immediatley and outlawed.
