

Submitter: ronald braatz
On Behalf Of: HB 4141
Committee: Joint Committee On Transportation
Measure: HB4141

If this is passed you will put farmers and loggers and moist trucker out of business a lot of farmers don't have the money to just run out and buy equipment just because some politician wants to cut down on Global warming. Plus, if this bill goes thru, it will raise the cost of ever thing and the people won't be able live without costing a arm and a leg to live the cost of living is high now and if this bill is passed my children and grandchildren and yours. The small business and their family are the ones you are going to hurt the most.
