

Submitter: Daniel Cummins

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

This bill is a terrible idea. It hurts everyone, from farmers to firefighters to paramedics all the way to the lay citizens. All people rely on diesel in some way, whether it's to get food from the store (delivered by a diesel semi) or if your house catches on fire (most if not all fire engines are diesel). Or you need an ambulance because a loved one is having a heart attack (most ambulances are diesel).

This bill will raise the cost of food/ living more than it already has. It could potentially KILL someone. I don't know a single fire district or ambulance company that could afford to replace most if not all of their fleet to respond to emergency's. Even if they could, the wait to get new fire engines or ambulances would be a long time.

**DONT NOT ALLOW THIS BILL TO GO THROUGH.**
