

Submitter: Beth Ruehl
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1552

We enrolled our daughter into Oregon Charter Academy, it has given us the extreme flexibility as a family. My husband and I both work construction and have to travel for work. Having this online option has saved our daughter the trauma of being in and out of multiple schools a year. It also insures she isn't missing multiple days of school due to the frequent moves.

To have the freedom to choose different school types it has personally saved our family a lot of anguish.

I hope you will please consider the diversity of your Oregonian constituents.

Thank you for your consideration for our unique family situation.

Beth Ruehl and family
