

Submitter: Elaine Lavington

On Behalf Of:

Committee: House Committee On Education

Measure: SB1521

I oppose SB 1521. This bill would take away from the School Board that represents the taxpayers "We the people". If a School Superintendent is not doing their job, they should be fired by the School Board and "We the people". The Oregon Department of Education has too much power and should not take the power away from "We the People". We do not need to give the power to ODE to have control of the School Superintendents. The School Superintendents work for "We the people". Please oppose SB1521.
