

Submitter: Tony Newbill

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: HB4077

Dear Committee , I Disagree Senator Wyden restoring Deschutes River Conservancy charter that is taking water away from Central Oregon farmers and ranchers because they have Not giving any response to a proposal for Water Shed Recovery Technology that USDA is Championed as the way to fix Dying Pacific Northwest states Water Sheds .

we need to fix Snow and Rain levels too or Piping Dying water shed is a false hope for all water users !!!!!

<https://www.deschutesriver.org/blog/merkley-wyden-announce-bill-to-reauthorize-deschutes-river-conservancy/>

In here they say they are looking for innovative Ideas to restore river Flows but have not said anything about doing what Idaho's doing with Cloud Seeding so why should they have their Charter restored ????

<https://www.deschutesriver.org/>

I showed them all the cloud seeding info and they said nothing , and we need to restore water shed run off too !!!
