

Submitter: Mellissa Barnard

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

There is no way Oregonians can survive if you attempt to do this yet again and finally succeed! I urge you to consider the detriment to all Oregonians if you do! There are other ways to be "Green" or whatever Jeep's driving this year after year! This is getting absurd! Go fix the things that actually need changed! I don't get the obsession of constantly attacking rural ways of life. If you take all the country away and make city's you still have to get food some how some where and it Will be farther away!!

I urge you to vote this down!
