Measure: SB1521

I strongly oppose this bill. The accountability of any and every elected official should be at the will of a governing body, such as a school board or general public. Like any profession, if a person is not doing a satisfactory job, that person should be relieved of their duties. We as a state have seemed to gone away from holding elected officials accountable. They should have no special protections in the law if they are not performing. I would urge to vote against this bill. Unfortunately, I feel we as the public no longer have a voice and politicians have already decided to pass bills such as this one. Please! Do not remove the public's ability to control who remains in an elected position.
