

Submitter: Liz Marlia-Stein
On Behalf Of: SB 1552
Committee: Senate Committee On Education
Measure: SB1552

Dear Senate Committee On Education:

Please oppose SB 1552. We need to be supporting our public schools in every way we can. Our children, and teachers who believe in public education, deserve to be valued. Opening up online education will only allow private industries to take advantage of the our public educational system and the funding we have available to strengthen it.

Thank you!
