On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure: HB4139

I always wondered why the Oregon legislature is so anti-business and makes so many bad laws. Now I'm wondering could it be that the people that get into politics or those that do not make it in private sector life? Could It Be they don't know how to run a business or have never experienced the joys and sorrow? And now this bill that would outlaw diesel? Please don't know on this bill and don't even consider it, it's a ridiculous bill. Diesels needed to run our Farms. Do you want to eat?
