

Submitter: Paul Billing-Ross

On Behalf Of:

Committee: House Committee On Rules

Measure: HB4157

As a member of the work-from-home class, I have benefitted from the services of front-line workers throughout the pandemic. These people are systemically underpaid and I support any measure to provide them and other low income individuals with direct cash compensation. The best way to support people struggling financially is to give them money and I hope to see Oregon also consider recurring assistance programs in the future.
