

Submitter: David Wall  
On Behalf Of: Mr Oregon Opposes HB 4059  
Committee: Senate Committee On Labor and Business  
Measure: HB4059

Thursday, [02.17.22]

I OPPOSE [HB 4049A].

[HB 4059A] is a 'Documentation sinkhole' and the cost to administer [HB 4059A] is unknown.

[HB 4059A] is burdensome and oppressive for General Contractors and will raise 'costs' of projects.

The 'apprenticeship' program has problems as do the 'Community Solar Projects'.

Reliance on a 'Community Solar Project' for energy needs is problematic. Does this 'renewable energy project' come with; battery storage technology, battery replacement , administration, maintenance and upgrade costs?

Look at all the 'Non-Profit and Public Benefit Corporations' and other 'special interest groups' who support [HB 4059A]. The aforementioned 'support' can be likened to shiver of hungry sharks smelling 'blood in the water'.

[HB 2021 (2021)] was poor legislation in 2021 and [HB 4059A] is poor legislation in 2022.

At least the Oregon legislature is predictably consistent.

If you are interested, my testimony for [HB 2021 (2021)] is below,

David S. Wall

Mr. Oregon Concur-'Community Solar Projects' will be justified to chew-up Oregon's Farm lands then Urban Growth Boundaries will expand.
