

Submitter: Bonnie Stratton
On Behalf Of:
Committee: Senate Committee On Rules
Measure: HB4133

We vehemently oppose 4133A because it expands, codifies and facilitates the fraudulent voting process which currently exists in Oregon. We the people demand a system of voter ID and in person voting which will insure that only US citizens, duly registered and identified at the polls with a valid identification vote in our elections. Registering people who only provide a social security number and continuing mail in voting is a patent hoax to permit theft of our elections by allowing illegals and non-citizens, ballot harvesting political operatives and ballot thieves to flourish. Our legislature does NOT represent our citizens with blatantly fraudulent measures such as 4133A.
