

Submitter: Shannon Garlitz
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1552

I'm writing in support of SB 1552. Oregon students should not be denied access to virtual public charter schools if they need or want that option. Zip codes do not designate ownership over children. Oregon students are not products of merchandise to be kept or traded at the discretion of Oregon public school administrators. It's time for Oregon legislators to begin to value Oregon students by their worth as humans rather than their worth as ADMw's contributing to the bottom line of the district that OEA and OSEA members are employed by.

There is no good reason that Oregon students should be prevented from choosing virtual public charter school as the means of receiving an education. ALL Oregon students deserve the opportunity to receive the best possible education, including the right to choose virtual public charter schools. I urge you to please support SB 1552.
