1. The vaccines are gene manipulation with their efficiencies based on PCR tests which are 97% false positives. The vaccines are mRNA. Mn means messenger. There are millions of these in the human body. On mn has only one message for a cell. This message is to create a single spike protein. This doesn't look like the Covid molecule! The vaccines don't work! The vaccines have a death rate of 1.6% and strong adverse reaction of 8%. Covid Death rate is 0.3%. There exist multiple natural treatments. Pfizer's EUA application for children 5 to 11 showed zero reductions in hospitalizations, ICU visits, or deaths from coronavirus. The FDA and CDC stated that zero was clear proof of efficacy and approved it as quickly as possible. This is BS analysis!
