

Submitter: Sharon E Streeter

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1589

This collision of "natural" rhythms and mechanical thrills is not new. I have seen these wave-makers, and they are no doubt a lot of fun, but at the expense to kayakers, canoers, paddleboarders, fisher people, shorelines, marine life, shore erosion . . . it is an example where the limit has been reached. Just because you can doesn't mean you have to.
