Measure: HB4106

I strongly disagree with this bill. As a RN with 43 years of hospital nursing/management experience, I feel this bill will take away the safety that we assure our patients. Lack of certification allows for a lower standard of acceptable practice in one of the highest areas of extreme risk in the hospital and out patient areas.

Also, as a patient, who has chronic disease, and has had multiple (8) surgeries, this bill is on great concern to me!!
