

Submitter: Taylor Myers-Collins

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4106

I am strongly against this bill. As a surgical technologist who is certified, part of AST, and has an associates degree in surgical technology, it's not okay to allow this to happen. Also, the thought of someone who knows nothing of the job just walking in and learning is concerning. There is so much to learn before going into a hands on clinical setting- Especially when it comes to aseptic technique. We also have to know every step in 100's of surgical procedures. This will also bring down the average pay for us. We already barely get paid enough the way it is.
