

Submitter: L O

On Behalf Of:

Committee: House Committee On Health Care

Measure: SB1529

In opposition of bill SB 1529 as it allows for health care providers unchecked power; this call for more power because of an emergency is an old tactic used to take away one's personal liberty. The people of this State hold the power and an emergency does not negate this. Do not allow this bill to pass; it is unnecessary but more importantly it's a nefarious attempt to undermine the freedom of the American people.
