

Submitter: Sky Schual

On Behalf Of:

Committee: House Committee On Health Care

Measure: SB1529

I am concerned about the excess of power that SB 1529 would give to unelected officials, namely the director of OHA. Last minute changes, broad wording and lack of parameters make this a dangerous bill. The word "determination" is one such undefined word that could lead to misuse and overreach.

The democratic legal process is in place for a reason, and we must be careful to protect it. The authority to shut down our entire state's economy should never rest with one unelected individual or entity.

Please vote NO on SB 1529.

Thank you!
