

Submitter: Kent Smothers

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1589

I concur with the points made in opposition of this bill by the Oregon Families for Boating. It has been discovered that the the supporters and authors of this bill are misusing the public trust in providing testimony and evidence to the legislative body that is known to be inaccurate and unfounded. The opposition to this bill has offered reasonable solutions to minimize impact and enhance safety, but those offers continue to be ignored.

The process of government should always work to fair compromise, so please vote down this bill. By voting this down, you are sending a message to both sides, that you believe there is a compromise and that you expect us to work together to create that.
