

Submitter: Andrew M
On Behalf Of:
Committee: House Committee On Health Care
Measure: SB1529

This all must come to an end. Everything you said from masks to approved vaccine (not the vaccine available) to efficacy of the gene therapy is wrong. Emergency Use Authorization is wrong. Therapeutics were held back from people and denigrated which lead to death.

We see you, we know what you plan. We will not be subjectgated to your medical lies and hat tricks. This power grab is illegal and you will answer..... all of you in this life or the after life.

We will not be a part of your new normal of mask and never ending fear of a cold. I will never vote Democrat ever. You are all out of touch and are the true racist. I will not be silenced. My Hispanic family and friends will always side with liberty and choice you have tried to take away. We left poverty and oppression and don't plan to be a part of bringing it to this beautiful state or country. Communism will kill and it will eventually come after you and your family..... make no mistake. We see what you are doing what you are trying to implement. We know it is not about Healthcare. We see you.
