

Submitter: Ryan Webber

On Behalf Of:

Committee: House Committee On Health Care

Measure: SB1529

I oppose this bill. As we have seen over the past two years a perpetual emergency with weak evidence and no checks in place will not stand. Passing this over to an unelected position is an offense more gross than the previous misuse of emergency powers. Hiding this attempt by rewriting a bill with nothing related to the recent changes shows the intention of the creators. This will not stand, and the people are waking up to these deceptions. We do not consent and demand integrity and transparency.
